ARITRA DAS

Undergraduate Student | Aspiring Software & AI Developer

aritra.bytes@gmail.com | LinkedIn | GitHub | Instagram | WhatsApp

PROFILE

Motivated undergraduate student pursuing the IIT Madras BS Programme in Data Science alongside studies at Delhi University. Interested in programming, computer science, and building practical technology projects, with a long-term goal of growing into software and AI development. Currently strengthening foundational skills through coursework, workshops, and hands-on learning.

EDUCATION

IIT Madras — BS Programme in Data Science

Undergraduate programme | Currently pursuing

Acharya Narendra Dev College, University of Delhi

B.Sc. Programme — Physical Science with Computer Science | Currently pursuing

TECHNICAL SKILLS

Programming: Python (beginner), C++ (beginner)

Currently exploring: Web development and practical software project building

PROJECTS

Personal Portfolio Website

Developing a personal portfolio to present education, technical skills, projects, workshops, achievements, and contact links. Built as a learning project using a React/Vite-based setup; currently in progress.

HACKATHONS & WORKSHOPS

IIIT Delhi Hackathon — Participated in a hackathon experience and explored collaborative problem-solving and technology development.

Indian Data Club / Paytm Skymark Workshop — Attended a community workshop and learned about AI Build Agent workflows.

CERTIFICATES & ACHIEVEMENTS

AI Skill Fest 2026 — Cradles badge (as shared).

INTERESTS

Software development, artificial intelligence, data science, and building useful technology projects.
